FATE.

Twa shall be born the whole wide world apart
And speak in different tongues, and have no thought
Each of the others being, and no heed.
And these
O'er unknown seas to unknown lands
shall cross
Escaping wreck, defying death, and all unconsciously
Shape every act and turn each wandering step to this one end.
That some day out of darkness they shall meet.
And read Life's meaning in each other's eyes.

And two shall walk some narrow way of life
So nearly side by side that should one turn
Ever so little to the left or right.
They needs must stand acknowledged, face to face.
And yet with groping hands that never meet,
And lips crying in vain to ears that never hear.

They die unsatisfied. And that is Fate.
SUSAN MARR SPAULDING.

THE PENSACOLA EQUAL SUFFRAGE LEAGUE HELD INTERESTING MEETING.

The Pensacola Equal Suffrage League held an enthusiastic meeting last night in the council chamber of the city hall, with a large attendance.

The Pensacola Equal Suffrage League has many plans for the coming fall and winter. The big edition of The Journal issued by the Press Committee of the league, will be distributed September 7, Labor Day, and Suffrage Day at the Escambia Fair. October 21, will be featured by a Better Baby Contest, a "straw ballot," and an address by a noted lecturer, who will be invited for the purpose of placing the question of the equal franchise before the people in a womanly and able manner.

Mrs. Walker Ingraham, who is chairman of the fair committee, is making every effort to have Suffrage Day a success, and with the able corps of women who are assisting her, it is certain to be a wonderful day, in the history of woman's work in Pensacola.

The following appeal signed by Anna Howard Shaw, Jane Addams, Mrs. Desha Breckinridge, and Caroline Runz-Rees, to the organized suffragists of twenty-six countries in the name of the National American Woman Suffrage Association, has been sent out, and should be subscribed to by all suffragists:

"The cloud of a great international war darkens all Europe and the shadow of the conflict hangs over all the nations of the world, insuring disaster to all people and the turning back of civilization for a century to come.

"During the past hundred years women have given their toll not only to motherhood and the cares of family life, but also to the building up of the great industries of every country. They have devoted thought and energy and have made great sacrifices to humanity. Hundreds of thousands have sacrificed their lives to the life-giving vocation of motherhood. Yet

without one thought of the sufferings and sacrifices of mothers who have reared sons, or of the tremendous industrial burdens that war will impose upon women, who will have to do their own work and the work of the men called to the field of battle; without consideration of the little children who will have to be taken from school or from plenty for industrial toil thus wantonly imposed upon them by the government whose duty it is to protect and shield them; this curse of a medieval war is thrust upon those whose will and wish have not been consulted.

"Is it that hundreds of thousands of their sons may go down to death before the terrible machinery of modern war that the nations call upon women to give their youth, their years of toil, and their labor for a higher civilization? Have they reared sons only to become prey to the ambition of kings and exploiters? Shall the strongest and noblest of the races of men be sacrificed and only the weak and maimed left to perpetuate mankind?

"The suffragists of the United States call upon the women of the world to arise in protest against this unspeakable wrong and to show war-crazed men the between the commanding armies there stand thousands of women and children who are the innocent victims of men's unbridled ambitions; that under the heels of each advancing army are crushed the lives, the hopes, the happiness of countless women whose homes have been blighted, and whose honor will be sacrificed if this unholy war does not cease and reason and justice take the place of hate, revenge, and greed. This is not a national issue; it involves all humanity."

WAR RELIEF FUND STARTED BY WOMAN

MRS. KOHANYI AND HER BORN-LAND ELECTRIC, DECORATED WITH HUNGARIAN COAT OF ARMS.

orials and directs the work of the force, which she controls since the death of her wealthy husband, Edward T. Kohanyi, last March.

Recently Mrs. Kohanyi purchased a five-passenger Borland Electric from the American Electric Car Company which she uses daily to assist in the house solicitation work in connection with the relief fund.

As Mrs. Kohanyi passes through the streets she is given frequent recognition. Her car, with the Hungarian coat of arms painted on both doors, is known to almost every Hungarian in Cleveland.

Mrs. Kohanyi spends much time writing letters to prominent Hungarian women in all parts of the United States, seeking to interest them in her Hungarian relief plan, which is being carried out under the name of the American-Hungarian Relief Society. Branches are being formed in two thousand one-hundred towns and cities in which the Szabadsag circulates. A big sum will eventually be raised, Mrs. Kohanyi says.

This is the first time in history that a woman has started a big movement for the relief or uplifting of the Hungarians. Mrs. Kohanyi also has the distinction of being the first woman to be the permanent head of such an organization. It was her own idea and is being carried out just as she wants it.
